InterCap Develop  
Capacities Together

This publication was produced with the financial support of the European Union. Its contents are the sole responsibility of DDG and its project partners and do not necessarily reflect the views of the European Union

Developing capacities together:  
European CSO-university networks for global  
learning on migration, security and sustainable  
development in an interdependent world

## THE CONTEXT & PRIORITIES

Terrorism and extremist ideology as a challenge to security has significantly increased at a global scale. A large number of EU citizens who share this view, negatively influence the **promotion of further collaboration** among the EU and the developing countries, creating an obstacle towards achieving the Sustainable Development Goals (SDGs).

**The InterCap project**, funded by EuropeAid, envisages to address the emerging concern on the way in which shifting public perceptions of (in)security and risk, influence understanding of migration, sustainable development, responsibilities and lifestyles of EU citizens in an interdependent world.

**The Action's primary aim** is to establish European CSOs-university networks, build the capacities of the education actors, and promote global learning on migration, security and sustainable development in an interdependent world.
