THE PROJECT AIMS

to improve the availability of information to various stakeholders and the target group and cooperation between them by ensuring operation of the platform for migration information (website).

The website provides an opportunity for stakeholders and individuals to monitor TCN migration and integration processes, the activities of the participating actors, results and other useful information, to respond to the latest news related to the migration and integration of the target group in Lithuania and all over the world.

Special theme, which includes practical information about life in Lithuania, working, housing opportunities, social guarantees, health insurance, and etc. is dedicated to foreigners.
